Ramada Inn & Conference Centre
805 Brookdale Avenue, Cornwall, Ontario

Keynote Address:
"Cultural Continuity in the Face of Radical Social Change: Language preservation as a protective factor against suicide in First Nations Youth"
by
Michael Chandler, Ph.D., Distinguished CIHR & MSFHR Investigator,
Department of Psychology, University of British Columbia

Michael Chandler, Ph.D., is a developmental psychologist engaged in research at the University of British Columbia, Canada. The focus of his ongoing program of research is to illustrate how an understanding of the normative course of young people's social-cognitive development, coupled with an appreciation of the role that culture plays in constructing the course of development, strongly shapes a youth's emerging sense of responsibility for their personal past and commitment to their future well-being.
